TANZANIA
TOUR GUIDE
AWARDS

Awards for people who love
hospitality.

Tanzania, land of beauty & diversity.

How easy our life could
have been if we all teamed
up together to promote our
tourism industry!

The top local Safari guides
you need to attend you
through your **Tanzanian trip.**

Leopards – Queen of Stealth

Leopards are not only among the most beautiful animals, they are also the ultimate opportunists, adapting themselves to every change in habitat that might happen.

Zebra

A leader knows the way, goes the way and shows the way. No question, when it comes to Serengeti wildebeest migration. Zebras play a big role, leading thousands of wildebeest on the battle of life and death.

Rhinoceros

Rhiro is thick-skinned, well-balanced (on his large three-toed feet) and poised, despite his ungainly appearance. And like a future-focused leader, the rhino is hard-charging, when necessary, and he knows when to rest.

“We should definitely look even beyond the direct dollars earned from entry fees.”

Nickson – Awards Committee Team

“We live where we work, and we love what we do. It takes incredible talent and dedication, decades of experience, and first-rate training to weave this reputation of professional service.”
Sadock - Founder, Tanzania Tour Guide Awards

All you need is a small imprint in guides lives - Make a wise choice and sponsor a trophy in your name, sponsor our documentary trip in your name, sponsor our team uniform in your name, sponsor winners prize in your name.
